

Order salads by text

Text order, save money:
Delivery, drive thru and now
... texting?

Taking efficiency and customer service in the restaurant industry one step further, Green Tango Fresh Chopped Salads at 3211 Shannon Road is letting customers order by text message.

"In an age when we are all pressed for time and on average only have 30 minutes for lunch, text messaging your order eliminates spending any of that time waiting in line," the company said in a news release.

Green Tango has partnered with Gomobo, a provider of mobile and text ordering

services for restaurants, to offer the service.

For a limited time, customers can receive \$5 off their first Green Tango text order. Using the feature does require some advance setting up.

First, go to www.greentango.com and create a Gomobo account with your cellphone number and a secure password.

Green Tango also has a location in Northgate.
